

INSTITUTE OF NANO MEDICAL SCIENCES (INMS)

University of Delhi Delhi-110 007, INDIA

Invitation to the World Congress on Nanomedicine during 25th – 27th February 2026

Dear Colleagues and friends,

We are happy to inform you that the Institute of Nano Medical Sciences (INMS), University of Delhi has decided to organize World Congress on Nanomedicine during 25th – 27th February 2026. The event will be organized under the umbrella of International Society for Nanomedicine, Nanomedical Science Society and will be hosted by INMS in collaboration with various academic institutes and funding agencies like ICMR, AIIMS, DRDO, CSIR, DST, DBT, INSA, NAMS, NASI, IISERs, NIPERs, Ministry of Health, NITI Aayog, Ministry of Education, Ministry of External Affairs, University Grants Commission, Ministry of Food Processing Industries, SUNY Buffalo, New York Academy of Sciences, Sechenov Medical University Moscow, and pharmaceutical industries etc.

The event will unite over 2000 participants including eminent scientists, distinguished scientists and researchers to share knowledge, innovations, and advancements in nanomedicine. Our esteemed invited speakers will include Nobel Laureates and distinguished scientists from all over the world. Some of these prominent invited speakers are Nobel laureates namely: Prof. Berry Sharpless; Prof. Paul Nurse; Prof. Richard Roberts; Prof. Tim Hunt; Prof. Ada Yonath; Prof. Venki Ramakrishnan; Prof. Ryoji Noyori, etc. Prof. TMS Chang, FRS (Canada), McGill University has agreed to be one of the Honorary President and we have also requested Prof. Roger D Kornberg, Nobel Laureate to preside over this World Congress 2026.

The proposed topics for the conference are: Targeted drug delivery, Nanoparticles for diagnostics, Nanomedicine in cancer treatment, Regenerative nanomedicine, Precision Nanomedicine, Nanobiophotonics, Artificial Intelligence in Nanomedicine, Nano biosensors and medical devices, Radiation Nanomedicine, Law and Nanomedicine.

We propose to invite the Hon'ble Droupadi Murmu, President of India for the inauguration of this World Congress under the leadership of Prof. Yogesh Singh, Vice Chancellor, University of Delhi. We have also requested the Science & technology for the Society forum (STS Forum) Japan and World Health Organization (WHO) to actively participate in this World Congress on Nanomedicine.

INMS requests you to encourage the students and faculty members to be a part of this great event. Let us join to explore the latest developments and discuss the future directions in nanomedicine.

Prof. Ramesh Chandra
Founder Director, INMS
Chairman, World Congress

Prof. Indrajit Roy
Director, INMS

Dr. Snigdha Singh
Deputy Director, INMS
